**Sustainable Living Lab –
a 3rd generation living lab for enabling sustainability**

by

Professor Greg Morrison

Deputy Head of the department of civil and environmental engineering
at Chalmers University of Technology, Gothenburg, Sweden

Abstract

The housing association, HSB, will build a 3rd generation living lab on the Chalmers campus during 2014. This facility builds on three scientific disciplines: systems and engineering; sustainability science; design and behavioural science. Researchers from these disciplines are already working together on projects which support the living lab and have the specific aim of enabling sustainability in the home.

Biography

Professor Greg Morrison is deputy head of the department of civil and environmental engineering at Chalmers. He leads the research program homes for tomorrow and is involved in two housing association demonstration and lab buildings on the Chalmers campus, Riksbyggen Positive Footprint Housing and HSB Living Lab.

Date: 10 June 2013 (Monday)

Time: 11:00am

Venue: Room 4472 (Lifts 25-26)

~ All are welcome ~
